INTRODUCTION

The Company Golden fiber and fabrics is established in 2000 with the dedication of maintaining international standard quality for supplying fabrics for readymade garments industry. Golden fiber and fabrics is situated at Dhaka, it is well known for its quality product supply from China. We have good relationship with the different mills in China from where we are producing the fabrics and shipped to the buyer. We love to follow buyer's instruction and advice for any case. Our strong Chinese production team follow the productions very carefully, they checked the Yarn first as Yarn is the most important to maintain the quality. After that they follow the Weaving or Knitting by keeping close touch with the production unit of the mills and then they take the goods to the dyeing mills to maintain the buyer's color slandered and finally send the goods to the finishing mill to make the goods as fine as buyer want. So, Quality is our motto. Since we are producing the goods by selecting the mills by ourselves to maintain the buyer's interest, we have no compromise with the quality. We are inspecting the goods by our own quality controller not by the mill's people- so quality assurance is there. Our people are very much award about the quality as we trained them up for the inspection. We can offer very competitive price since we are dealing directly with the Yarn supplier, producer, dyeing mill and finishing mill by ourselves. We can keep the competitive price from the first stage of the process. So- we can offer very competitive price for all of the items needed by our buyer.

In a nutshell, we can say that we are ready for any kind of support and services to our client.

COMPANY PROFILE

WELLCOME TO GOLDEN FIBER AND FABRIC(GFF):

CODE OF CONDUCT

Code of business

It has always been important to us not to do what is best for us. Under no circumstances a maximum profit without considering the consequences. Instead, we want to be a company that lives the principles of its employees and an open and tolerant society.

Reliability, tolerance, sincerity, sustainability, humanity - these are the values we stand for and which we also want to live in our day-to-day business.

That is why we have imposed a strict Code of Business to openly disclose our behaviors and principles that we adhere to. We stand for all of our actions to be aligned with this Code of Business in order to be the honest, socially responsible and professional company that lives the principles of its employees and an open and tolerant society.

WE ARE DOING.....

KNIT FABRIC:

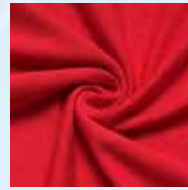

Golden Fiber And Fabrics is an ethical clothing and fabrics manufacturer from China and Bangladesh with a vision to provide the fashion industry with a manufacturing solution to social and environmental issues at the heart of its business.

JERSEY

RIB

SINGLE JERSEY

INTERLOCK

WOVEN FABRICS:

Woven fabrics are created by weaving yarns. They are often woven together on a loom that holds yarns in place as the weaving process happens. Woven fabrics have a warp and a weft, which determine the direction of the weave.

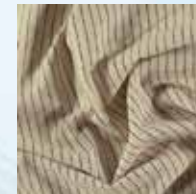

POPLIN

TAFFETA

TWILL

YARN DYED

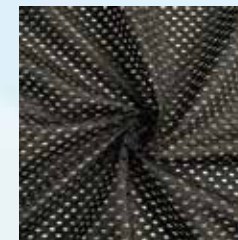

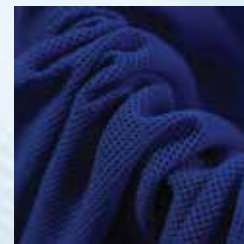

DENIM FABRICS:

Denim is one of the world's most iconic fabrics. The moment you say the words "denim jeans," everyone around you knows what you're talking about. Denim is popular across national and cultural boundaries, and the denim jean has become a symbol of American culture the world over.

MESH FABRICS

GOLDEN FIBER AND FABRICS can provide different versions of mesh fabric which is typified by its lightweight heft and permeable texture.

PRODUCTION CAPACITY

Our constant endeavor is to always meet & exceed the expectations of the customer. The manufacturing capacity of Hoorain HTF Ltd. is about 2 million yards of fabrics per month.

- **KNIT FABRIC** : 50k yards per month
- **WOVEN FABRIC** : 25k yards per month
- **DENIM FABRIC** : 50k yards per month
- **MESH FABRIC** : 75k yards per month

TYPE OF FABRICS

Terry Cloth

This terry cloth or towel terry has long loops on both sides. It can have equally length and amount or only one side can have longer loops. The prolonged side will be softer and it serves as absorbent area, helps you dry water from skin quickly. This type of fabric is ideal for producing towels, bathrobes and bath mat.

Terry Velour

Terry velour texture is quite opposite to the traditional one. The loops present only on one side while another has short piles which give a feeling of soft and smooth like velvet. It almost has the same feature as french terry but this distinctive velvety makes it stand out from the others.

French Terry

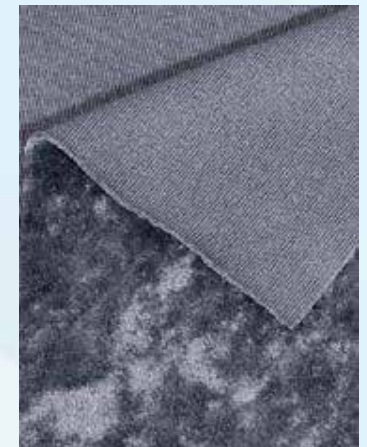

French terry has 2 different textures. One side is soft and even while the opposite side has loops just like the terry cloth. Most people are familiar french terry in form of sweatshirts and sportswear where the outside clothes are softer and smoother. Moreover, this fabric is popular for pajama and loungewear such as sweatpants can be worn chilling in the house and outgoing.

SINGLE JERSEY

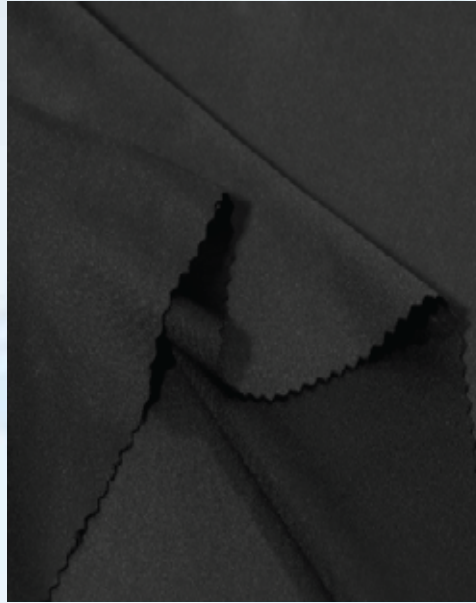

Golden Fiber and Fabrics
(100 % Export Oriented Fabrics Supplier & Manufacturer)

The face side is softer while the back side is smoother. This fabric stands out for breathability, flexibility and lightness. Therefore, it is perfect for summer clothing and is often used for sport and fashion.

INTERLOCK

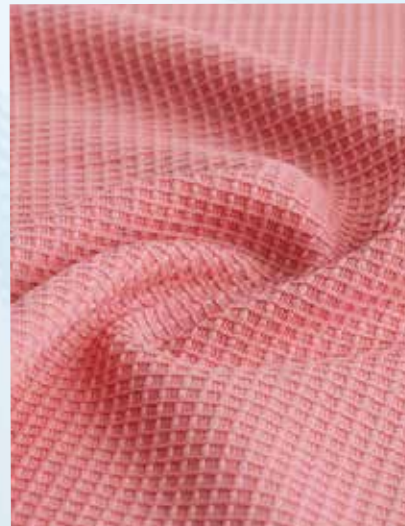

This textile is pretty similar to a single jersey but it is thicker and heavier by two sets of needles. It is widely used for making sportswear, polo shirts and dresses.

RIB

It has more durability and flexibility than plain knit. This is why it is favored for making necklines, cuffs, and bottom edges of clothing. It is also used in making fashion wear such as vests, t-shirt, and dresses.

SPANDEX

Spandex is a smooth fabric which has a unique flexibility. It can stretch to 5-7 times from its normal size. It is moisture wicking and commonly used in workout clothing.
